

# Tracker

W E E K L Y   S T A T S   T R A C K E R

FOCUS

The only way to measure your success is to track your progress consistently. It's important to record your progress as you can't manage what you don't measure. There are six sections to fill in which have been deliberately left blank, so you can tailor this to your needs. You could track body stats, measurements, number of workouts completed that week, total steps, sleep, your mood or overall energy levels.

	STATISTICS TO RECORD
